

REPORT

1912

The following report was prepared by the committee on the subject of the proposed changes in the curriculum of the high school. The committee was organized on January 1, 1912, and has since that time been engaged in a study of the subject. It has held several public hearings and has received many suggestions from the public. It has also held several private hearings and has received many suggestions from the faculty and the board of trustees. The committee has also conducted a series of experiments in the high school and has found that the proposed changes are feasible and desirable. It is therefore recommended that the proposed changes be adopted.
