K 4.—

Durch die eigenartige Kon-
 struktion der Schraube wird
 der Sitz infolge des Körper-
 gewichtes in jeder Höhen-
 lage fixiert.

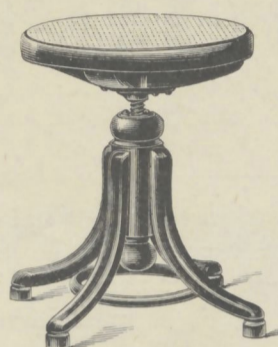

Par cette construction par-
 ticulière, le siège, une fois
 vissé à la hauteur voulue,
 se fixe dans sa position par
 le poids de la personne.

By a special contrivance with
 the screw the seat can be fixed
 in any height by the weight
 of the person sitting on the
 stool.

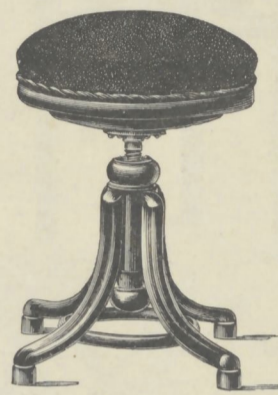

Por medio de esta construc-
 cion particular el asiento una
 vez puesto a la altura de-
 seada se fija automaticamente
 con el peso de la persona.

Por meio da construção par-
 ticular do parafuso, o peso
 da pessoa basta para fixar o
 assento inteiramente na po-
 sição desejada.

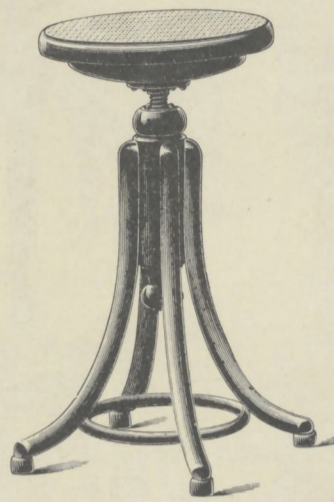

Door de bijzondere inrich-
 ting van deze schroef kan
 men de zitting, bij het ge-
 bruik, door het lichaams-
 gewicht op elke hoogte dven
 stilstaan.
